Made with Purpose

CŪBLES are meant to make a difference in our world. 100 trees are planted for every tree used to make CŪBLES. So, with every CŪBLES you build, you're taking an action to help the trees and our planet.

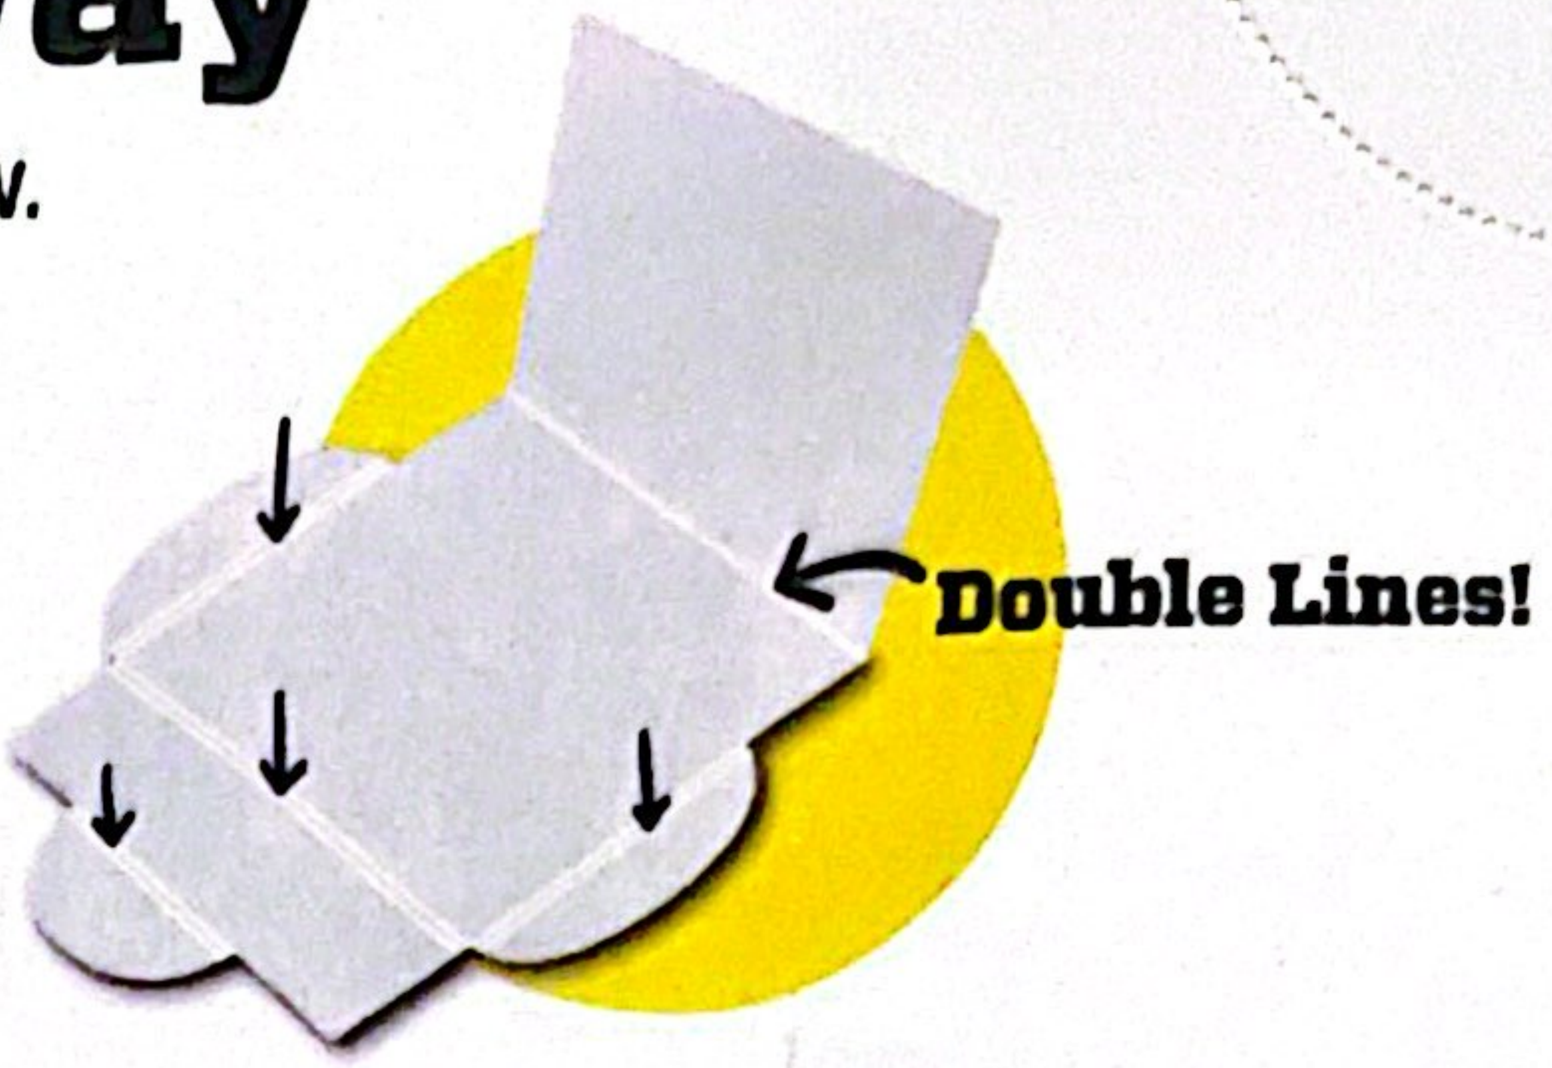
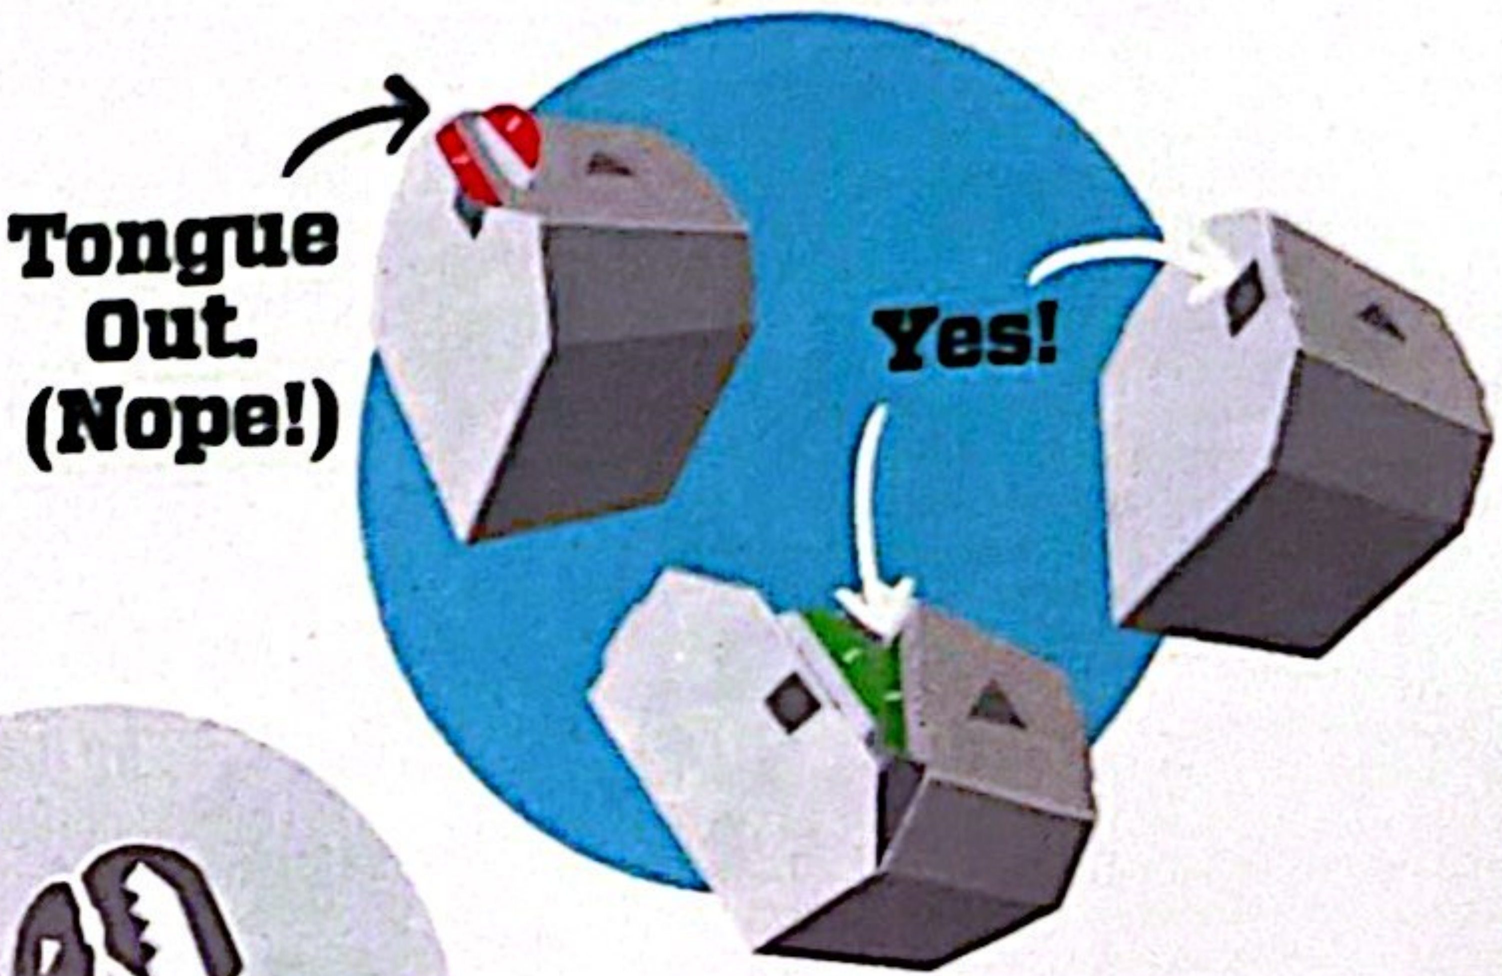
the CŪBLES way

Ready? Open your mind, and the rest will follow.
It may not be obvious at first, but you'll see.



1 POP + FOLD

Look for the double lines on the back of each piece! Start by folding all of these.

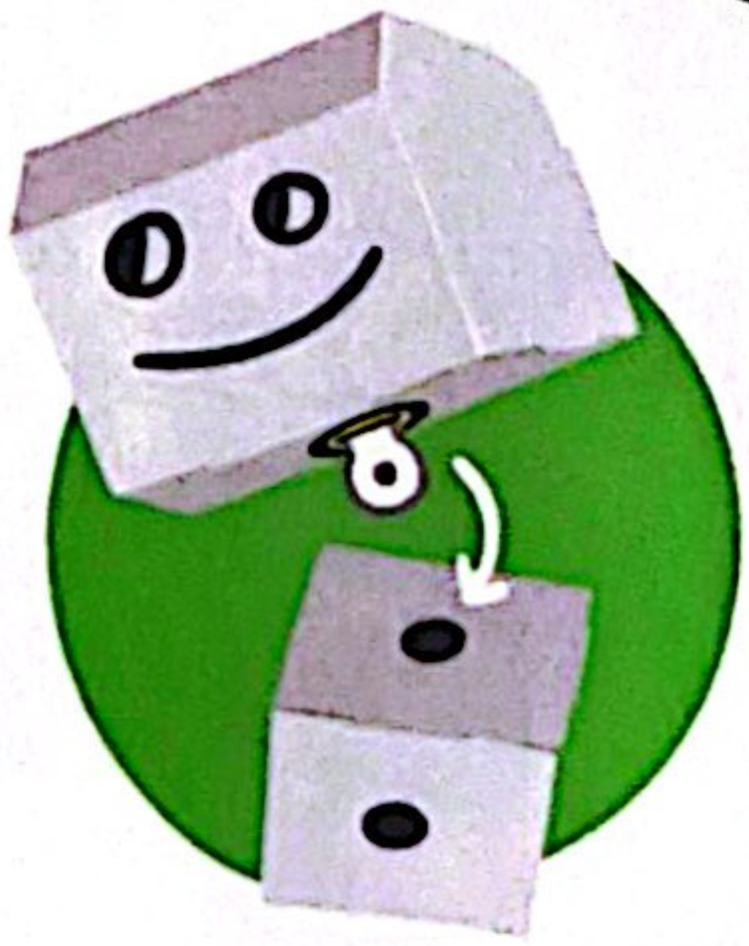


2 make the CONNECTIONS

Match up the numbers & **solid colors** to start connecting. The **outlined colors** connect to other pieces. (You'll see.) Watch out for **"tongues"** sticking out at you. ;)

3 the KEY, part 1

First, fold the key joint like an accordion.
Second, insert it half way into a key hole.
Third, twist a little to lock in place.



4 the KEY, part 2

Put it all together. Keys become joints. Take your time, feel it out, and bring your CŪBLES to life!

Need more help with building?

Fear not! Scan here or go to **cubles.com/assembly** & get some video tips and other tutorials.
